ARMY (ANNUAL) ACT, 1917.

[7 GEO. 5, CH. 9.]

CHAPTER 9.

AN ACT TO PROVIDE, DURING TWELVE MONTHS, FOR THE DISCIPLINE AND REGULATION OF THE ARMY.

[5th April 1917.]

Whereas the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law :

And whereas it is adjudged necessary by His Majesty and this present Parliament that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should consist of five million, including those to be employed at the depots in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within His Majesty's Indian possessions :

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of the realm, that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid :

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of His Majesty's forces by sea :

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm, by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm ; yet, nevertheless, it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow :

44 & 45 Vict. c. 58.

And whereas the Army Act will expire in the year one thousand nine hundred and seventeen on the following days —

(a) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April ; and

(b) Elsewhere, whether within or without His Majesty's dominions, on the 31st day of July :

Be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

(b) Elsewhere, whether within or without His Majesty's dominions, from the thirty-first day of July one thousand nine hundred and seventeen to the thirty-first day of July one thousand nine hundred and eighteen, both inclusive.

(2) The Army Act, while in force, shall apply to persons subject to military law, whether within or without His Majesty's dominions.

(3) A person subject to military law shall not be exempted from the provisions of the Army Act by reason only that the number of the forces for the time being in the service of His Majesty, exclusive of the marine forces, is either greater or less than the number herein-before mentioned.

"(3) Where a person surrenders himself to a constable in the United Kingdom as being a deserter or absentee without leave, the officer of police in charge of the police station to which he is brought shall forthwith inquire into the case, and if it appears to him from the confession of that person that that person is a deserter or absentee without leave, he may cause him to be delivered into military custody without bringing him before a court of summary jurisdiction under this section, and in such case shall send to the Army Council or as they may direct a certificate signed by himself as to the fact, date, and place of such surrender."

[5th April 1917.]

Geo. 5, Power to call up certain excepted men for examination

1. (1) The Army Council may, in accordance with and subject to the provisions of this Act, at any time, by written notice require any man who is for the time being excepted from the operation of the Military Service Acts, 1916, as being—

(b) a man (in this Act referred to as a disabled man) who has left or been discharged from the naval or military service of the Crown in consequence of disablement or ill-health (including an officer who has ceased to hold a commission in consequence of disablement or ill health), and

(c) a man who has been previously rejected on any ground, either after offering himself for enlistment or after becoming subject to the Military Service Acts, 1916, to present himself for examination in such manner and within such time, not being less than fourteen days, as may be specified in the notice:

Provided that no man shall be required to submit himself for re-examination within six months of his previous and last rejection or discharge except where the Army Council otherwise direct in a case in which it appears to the Council that the previous rejection or discharge was obtained by fraud:

Provided also that the powers under this provision shall not extend—

A., 178.—The following resolution of the Government of India is republished:—

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCE AND TRADE.

Simla, the 22nd May 1917.

No. 5800-Spl.—In conformity with the scheme adopted in the United Kingdom, the Government of India prescribed in April 1916 certain forms for the registration of claims of British and British Indian subjects against enemy subjects and enemy Governments, and informed the public in a Press Communiqué issued on the 27th of that month that persons or firms desiring to register their claims should apply in the appropriate form to Custodians of Enemy Property, or, where no such officer is appointed, to the Local Government or Administration within whose jurisdiction they reside or carry on business. The Government of India regard it as important that the registration should be as complete as possible, and accordingly request that persons concerned will help in enabling Government to secure the object by putting forward their claims

Ootacamund, June 4, 1917

No. 179.—(i) It is proposed to form an Army Corps Signal Company composed of Indians drawn from the educated classes of Bengal, Madras and Bombay. Candidates must have a working knowledge of English. Their age must be between 18 and 30.

(ii) The organization of the company, the duties which it has to perform and the sanctioned scale of pay and allowances are explained in the annexure to this notification.

(iii) The usual customs of the Indian Army as regards caste distinctions and scruples with special reference to messing arrangements will be adhered to.

(iv) Enlistments in the company will be under the Indian Army Act and will be for the duration of the war. All the men will be enlisted as "Sappers and Miners" but will be trained either as signallers, linesmen or drivers as the case may be, enlistments will be for "General Service," i.e., anywhere in or outside India where troops of the Indian Army may have to go. The company will be quite distinct from the Indian Defence Force.

Anglo-Indians are not eligible for enlistment.

(v) So far as the recruitment of the Madrasis is concerned, Collectors will collect men offering themselves for enlistment, have them medically examined by the nearest Medical officer (Civil or Military) and, if passed fit, send them for enlistment to the General Officer Commanding the Bangalore Brigade, at Bangalore. They should report themselves to Major Plummer, Recruiting officer, and will be accommodated in the Richmond Lines attached to the 79th Carnatic Infantry until transferred to Jubbulpore for training with the 104th Rifles.

(vi) Subsistence allowance at the rate of four annas per diem per recruit will be allowed to the recruits from the date of their admission by Collectors till they are enlisted or rejected.

They will also be entitled to free conveyance charges by rail, river, canal, or sea from their homes to the place of medical examination and, if passed fit, to Bangalore. Rejected recruits will be paid similar conveyance charges for return to their homes together with an allowance of two annas per 10 miles for any part of the journey which must be performed by road.

(vii) Intending applicants for enrolment should apply to the Collectors of their respective districts. The sum of Rs. 3 will be allowed as "Bringing-in money" for each recruit enrolled. Collectors will send on account of the expenses they incur, supported by vouchers whenever possible, to the General Officer Commanding the Bangalore Brigade, who will refund the amount to them.

(viii) As the formation of a Madrasi Company depends on the enlistment of a sufficient number of recruits and the number required in the first instance is only 90, His Excellency the Governor in Council relies confidently on the patriotism of the educated classes of the Madras Presidency to yield an adequate quota of men.

(iv)

The object of an Army Corps Signal Company is to maintain communication between corps headquarters, the headquarters of divisions (usually three in number) and the corps troops, mostly heavy artillery, under the command of the Lieutenant-General Commanding the Corps.

2. A Corps Signal Company is responsible for the delivery of official letters (other than letters passed through the post office) and telegrams received at its offices. For this reason it is divided into three sections—

(*a*) The headquarter section performs the duties of a combined telegraph, telephone and post office, the same as any civil office in any town in India. It supplies all personnel and fixes its own instruments. The motor cyclists carry the letters (purely military ones) between corps headquarters and the headquarters of divisions under the Corps Commander. They are called despatch riders.

(*b*) The airline section will be employed in erecting telegraph and telephone airline between corps headquarters, divisions and corps troops of the same description as may be seen in any town or on any railway in India; only the poles and wire are lighter. The whole of their work may be classed as semi-permanent. The personnel of this section fixes its own instruments and finds its own operators.

(c) When on the move communication between corps headquarters and divisions and corps troops is maintained by means of cable, carried on cable carts or pack mules and laid by the personnel of the cable section. Operators are also found from among these men for both telephone and telegraph work. Cable lines are, as a rule, subsequently replaced by airline as the corps headquarters and divisions advance: or if they remain fixed for any period.

3. The whole work of this unit may be classed as highly technical and scientific. First-class operators and linesmen will be equal to, if not more efficient than, post-office men as they have great experience on a variety of instruments, namely, vibrator, telephone and telegraph.

4. The preliminary training of the men after enlistment will consist of the rudiments of infantry drill, the elements of signalling and musketry. They also are physically trained and taught sanitation. Those selected or enlisted for motor work and as drivers will be taught their work instead of infantry drill. The preliminary training for Madrasis will be carried out at Jubbulpore. Subsequently they will be sent to Poona for their highly technical training.

The first object should be to enlist men with previous scientific knowledge; men who have been through technical schools. This was what was done in England. Failing this, men who have a good sound education, the higher the better. All men who are subsequently graded as first-class operators or mechanics and granted full working pay will after discharge from the Army be certain to easily obtain good civil employment.

Acting Chief Secretary.

They will be tenable by pupils belonging to the following classes of the Muhammadan community of this Presidency—Mappillas, Labbais, Dudekulas or Pinjaris and Jonagans. They will be of the same value as the scholarships that are now awarded under the Government Scholarship notification, 1917-18, to pupils in secondary schools (viz., Rs. 3 per mensem in forms I to IIF and Rs. 6 per mensem in forms IV to VI) and will be held under similar conditions. Of these eight scholarships, three will be placed at the disposal of the Inspector of Schools, Eighth Circle, and one at the disposal of each of the Inspectors of the Third, Fifth, Sixth, Seventh and Ninth Circles for award at their discretion, subject to the conditions laid down in the Government Scholarship notification of 1917-18.

2. In addition to the above, four special collegiate scholarships tenable by all classes of Muhammadans commencing from the Junior Intermediate class and continuing throughout the whole of the Intermediate and B.A. courses will be awarded every year in colleges. (2) Applications for scholarships tenable in higher elementary standards and in secondary schools shall be submitted to the Inspector or Inspectress, as the case may be, of the circle where the institution in which the scholarship is tenable is situated, by the head or manager of the institution in which the pupil studied in 1917 through the head or manager of the institution in which he intends to study, and through the inspecting officer who inspects that institution.

Applications for scholarships tenable in college classes shall be submitted to the Director by the head or manager of the institution from which the student went up for the examination through the head or manager of the institution in which he intends to study. In the case of applications for scholarships in the first year University class on behalf of students who have obtained secondary school-leaving certificates, the heads or managers of the institutions which such students have joined should not recommend more than three students who in their opinion are most deserving of scholarship and they should submit the secondary school-leaving certificates of such students along with their applications to the Director who will scrutinize the certificates with a view to the award of scholarship.

All applications should be dated. Separate forms should be used for each grade of scholarship. If one form is not large enough, the list should be continued on another form.

Scholarships remaining unappropriated in one circle may be utilized for additional scholarships in other circles. The transfer of such scholarships from one circle to another will be made by the

Director, and Inspectors and Inspectresses will therefore furnish him, before the end of September next, with a statement showing the number of scholarships placed at their disposal, the number sanctioned by them under each head for the different classes of the community, such as Urvas, Mahammadans, Mappillas, other backward classes, Indian Christians, Brahmans, Non-Brahmans, etc., and the number available for transfer. Any scholarships vacated in the course of the period for which it is tenable may be awarded for the remaining period to an eligible applicant in the same year of study as the holder of the scholarship vacated. *No new scholarship can be awarded to a student in the middle of a course.*

(5) The names of the selected candidates will be notified in the case of scholarships sanctioned by the Inspectors and Inspectresses in the District Gazette and in the case of scholarships sanctioned by the Director in Part I-B of the *Fort St. George Gazette*.

(6) Heads of colleges may grant leave without diminution or loss of scholarship for a period not exceeding one month to scholars who are absent in consequence of severe sickness; but if the leave exceeds this period, no scholarship is to be granted for the excess period. Casual leave without diminution or loss of scholarship may be granted for good and sufficient reasons for a period not exceeding fifteen days in the year, provided such leave does not immediately precede or succeed gazetted holidays. Under the above conditions, leave for scholarship-holders in schools may be sanctioned by the head of the institution who shall then report it to the Inspector or Inspectress concerned. If a scholarship-holder absents himself without good reason on the re-opening day after the vacation for the school or college, the scholarship for the vacation is liable to be withheld under the orders of the sanctioning authority.

(7) No person receiving a scholarship under this notification shall be permitted to hold any other scholarship provided wholly or partly by Government without the special sanction of the Director. Such sanction will be accorded only for very distinguished merit.

(8) In cases where the order of merit cannot be ascertained, or where the number of eligible candidates is in excess of the number of available scholarships, it is open to heads of institutions to hold a competitive examination in one or more subjects with a view to select the most deserving candidate.

(9) All scholarships tenable under the above rules are liable to forfeiture for illness, misconduct, irregularity in attendance, or failure to make due progress or to secure annual promotion.

(10) A scholarship held in any class shall run from the beginning of the month in which the holder joins the class, and shall not continue to be drawn after he ceases to attend it.

(11) The scholarships are payable monthly and in advance.

(12) The scholarships sanctioned may, on the scholarship-holder's promotion to the next higher class, be either renewed or increased at the rates given above, provided the scholarship-holder's progress and conduct have been satisfactory. Applications for renewed or increased scholarship shall be submitted in the prescribed form. The instructions referred to above regarding the supply of forms and the date and manner of submission of first applications shall apply equally to the submission of applications for renewed or increased scholarships.

(5) The deposit will be returned to the unsuccessful bidders as soon as possible after the auction sales are over.

(6) The deposit of the successful bidder will be retained as security for the due removal of the salt on payment of duty and cost price within the time allowed for such removal. (7) If the purchaser fails to remove the salt as per condition (3) supra his deposit will be forfeited to Government and the salt resold at his risk or destroyed by Government at his expense.

(8) The purchaser shall immediately on the acceptance of his bid being intimated to him execute an agreement binding himself to abide by condition (7) supra and generally by the terms of the sale notice.

(9) The officer holding the auction has power to accept or reject any bid without assigning cause for doing so.

TENDERS FOR SUPPLY OF TEA.

SEALED offers by letter or telegrams for the supply of Indian grown black tea required to be delivered between the 15th August and 15th October 1917 will be received by the Deputy Assistant Director of Supplies, 9th Division, Ootacamund, up to 12 noon on Wednesday the 20th June 1917.

2. Offers should specify in words as well as in figures the rates at which the tea will be delivered. Fractional parts of pies in rates cannot be accepted. Rates should be quoted at so much per pound or per 100 pounds with full particulars regarding terms of delivery. Offers must be fully signed and dated. Offers by letter should be sent in a sealed or registered cover superscribed (tender for the supply of tea) and addressed to the Deputy Assistant Director of Supplies, 9th Division, Ootacamund, and not to any officer by name.

3. Offers will be opened at this office at 12 noon on Wednesday the 20th June 1917. Offers sent by post should be despatched so as to reach this office the day previous to opening of tenders as registered letters are not delivered in Ootacamund till the following day.

4. Tenderers are particularly requested to give their address in full and also their telegraphic code address if any. These should also be quoted in all correspondence.

5. Quotations should be for delivery either in regulation Army boxes (as specified in paragraph 7 or for delivery in ordinary commercial chests) (see paragraph 8), and should also be for delivery (*a*) for the various quantities specified F.O.R. at the several stations concerned or (*b*) for the total requirements delivered (1) F.O.R., Madras, (2) at Supply Reserve Depot, Madras. Should any tenderer fail to specify the place of delivery it will be taken to mean that the offer is for delivery at the Supply Depot of each station of requirements.

8. No earnest money is required but the successful tenderer will be required to execute the usual Informal Agreement or Contract Deed on I.A.F.Z.-2123 or 2126 and 2121 with or without a security deposit as may be necessary.

7. The following special conditions will be included in the agreement for the supply of tea in *Regulation boxes* :—

"The tea should be equal to the Supply and Transport sample (which can be seen by the tenderer at the Supply Reserve Depot, the Beach, Madras, or at the nearest Supply and Transport Store Depot, i. e., at any one of those named below) and free from undue proportion of dust tea, clean, sweet and not of very poor quality and will have to be passed by an expert as satisfactory for issue to British Troops, and shall be contained in strong serviceable boxes (but not of seemal or cotton wood) lined with sheet lead well secured and in merchantable condition and the lids of the boxes shall be securely nailed down and not screwed. A uniform quantity of 80 lb. tea should be contained in each box which will be oblong in shape and according to the sealed sample which the tenderer can inspect in the Supply Reserve Depot, the Beach, Madras, or in any Supply and Transport Store Depot measuring outside 2' 8" × 1' 1" × 1' 8" and weighing with sheet lead not more than 26 lb. 4 oz. (sheet lead 4 lb 4 oz and box about 22 lb.). The total weight of each box with tea is thus not to exceed 78 lb. 4 oz., viz., box with sheet lead should weigh about 26 lb. 4 oz. and tea 80 lb.

Each box should be branded thus :—

Season	..	(Correct year to be inserted).
Indian Black Tea	..	....
Net Weight	..	80 lb.
Gross Weight	..	(To be inserted).
From	..	(Contractor's name to be entered).

The weight of each box with lead foil will not be rigidly insisted on but variations in the aggregate weight of the box including lead should not exceed 4 lb. for instance 2 lb. more or 2 lb. less may be accepted. Empty tea chests and lead will become the property of Government."

8. Alternative rates may also be quoted for tea packed in sound and thoroughly serviceable *tea chests of ordinary commercial pattern*, fit for transit by rail, instead of in the regulation Army boxes above described, but it should be clearly specified in the offer what style of packing is tendered for. These boxes should also be marked as per paragraph 7 above.

9. The approval of rejection of offers rests with the General Officer Commanding, 9th Division, who reserves to himself the right of rejecting any offer, or any items in a tender, or a portion thereof, without cause assigned. The lowest tender need not necessarily be accepted. As a rule only successful tenderers are informed by telegram of the result of their offer. No notice can be taken of requests from unsuccessful tenderers for information by telegram unless the cost of such telegrams is prepaid.

10. All consignments deliverable free on rails in fulfilment of the contracts should be despatched at the *ordinary Public Tariff rates* and not at the Military Tariff rates. Further it is not incumbent on contractors to book their supplies to a Government official as has previously been the case.

11. A four average two pound sample of tea should be sent to this office a week before the tenders are opened.

12. Any further information required can be obtained on application to this office between the hours 11 a.m. and 3 p.m. (Sundays and Holidays excepted).

13. The probable estimated requirements, which however cannot be absolutely guaranteed, are as under :—

2. The lease will commence and terminate on the dates noted against the respective groups. It will be limited to six months. The amount of bid which will be subject to confirmation by the Deputy Commissioner, Central Division, will be for six months.

3. A deposit of one-third of the upset price must be made by each intending bidder previous to bidding and it will be received by the Inspector, Salt, Abkari and Customs Department, Madras Depot Circle, at any time during the office hours within three days previous to the date of sale.

4. No person will be allowed to bid for another, unless he holds a power-of- attorney from him. Such facts should be brought to the selling officer's notice at once.

5. The selling officer may for valid reasons refuse to accept any bid, and in cases of dispute his decision shall be final; or, for any reason, the highest bid is rejected, the selling officer may at his discretion either accept the next highest bid or commence the auction again.

The aggregate value of the sea-borne trade of the Presidency was nearly Rs. 5,455 lakhs, showing an increase of Rs. 589 lakhs, or 12 per cent, as compared with that of the preceding year, and an increase of Rs. 215 lakhs, or 4 per cent,

whoo compared with the average for five years ending 1913–14, and only Rs. 361 lakhs, or 5 per cent below the record figures of 1913–14. Government transactions amounted to Rs. 304 lakhs, or Rs. 223 lakhs more than those of 1915–16.

Foreign trade continued to feel the effects of the war and in view of the difficulties of obtaining tonnage and the very high rates of freight, coupled with the restrictions extended to most commodities and exchange difficulties it is remarkable that the total value of our sea-borne trade considerably exceeded that of the average for the five years immediately preceding the war. It must be borne in mind however, that this increase was largely due to the high prices prevailing almost everywhere and that the quantity of trade borne by sea was in most cases materially less than in previous years.

The United Kingdom has increased her trade with Madras both in imports and exports, and this is also true in the case of the United States of America and Japan.

Foreign trade, including Government transactions, improved from Rs. 8,714 lakhs to Rs. 4,245 lakhs, or by 14 per cent. *Coasting trade* increased from Rs. 1,172 lakhs to Rs. 1,210 lakhs, or by 3 per cent. Excluding Government transactions, foreign trade improved by 9 per cent and coasting trade by 2 per cent.

Under *foreign trade*, *imports* of private merchandise expanded from Rs. 1,153·20 lakhs to Rs. 1,285·59 lakhs, or by 11 per cent, due to increased values under cotton manufactures, paper and pasteboard, cotton twist and yarn, motor vehicles, spices, metals, chemicals, sugar, machinery and millwork, provisions, woollen manufactures and coap, while under railway materials, matches and cement there was a decrease.

Exports improved from Rs. 2,458·27 lakhs to Rs. 2,591·21 lakhs, or by 5 per cent, and if the figures for tanned cow hides shipped under Government control from September 1916 be added the total exports show an increase of 13 per cent. The increase in value chiefly occurs under leather, raw cotton, oils, drugs and medicines, raw skins, raw rubber, spices, sugar, fish, manures, postal articles, raw jute and living animals. These increases were partly counterbalanced by decreases under grain and pulse, seeds, indigo, coffee and cotton twist and yarn.

Imports of *treasure* declined from Rs. 2·87 lakhs to Rs. 2 lakhs, or by 30 per cent, while exports improved from Rs. 34·56 lakhs to Rs. 89·98 lakhs, or by 160 per cent, owing to larger shipments of rupees to Ceylon and the Straits Settlements.

Under *coasting trade* imports of private merchandise declined from Rs. 660·32 lakhs to Rs. 612·75 lakhs, or by 7 per cent, owing to smaller imports of grain and pulse, while exports improved from Rs. 488·92 lakhs to Rs. 558·43 lakhs, or by 14 per cent, in consequence of larger shipments of coffee, coconuts, groundnut oil, manures, sugar, seeds and spices.

Balance of trade.—The following table shows the balance of trade in merchandise and treasure under foreign trade during the past five years :—

Total, Net duty ..	76,96,517	72,39,374	98,77,742	+ 26,38,368

The total gross revenue was Rs. 101·21 lakhs, an increase over the previous year of Rs. 27·30 lakhs, or 37 per cent. The amount of import duty realised improved from Rs. 59·94 lakhs to Rs. 87·03 lakhs, or by 45 per cent, partly as a result of enhanced rates of duty leviable under the revised tariff of March 1916 and partly as the result of the high prices of the articles. Larger payments of duty were received on manufactured articles (+ Rs. 11·69 lakhs or 83 per cent), sugar (+ Rs. 3·74 lakhs or 131 per cent), articles of food and drink (+ Rs. 3·02 lakhs or 80 per cent) and cotton manufactures (+ Rs. 2·40 lakhs or 30 per cent). The increase of Rs. 0·21 lakh, or 1·1 per cent, under export duty was the net result of larger collections on tea by Rs. 2·86 lakhs and smaller collections on rice by Rs. 2·67 lakhs.

Standard Price Level.—The following table shows the variations in the average prices of the more important articles of commerce. The mean for the years 1898–99, 1899–1900 and 1900–01 has been taken as the standard price level, viz. 100:—

Foreign Imports.

Imports.—The increase under group I was due to larger imports of spices, sugar and provisions and that under group III to increased values under cotton manufactures, cotton twist and yarn, metals, machinery, paper and pasteboard, motor cars, chemicals and soap, partly set off by smaller imports of railway materials, cement and matches.

Exports.—Smaller shipments of grain and pulse and coffee, partly counterbalanced by larger shipments of spices, fish and sugar brought about a decline under group I. The increase under group II was caused by increased shipments of raw cotton, raw rubber, oils, raw skins, manures, and mica. Only exports of seeds showed a decline. Under group III the large increase was accounted for by heavy shipments of leather, drugs and medicines. These were partly counterbalanced by smaller shipments of indigo and cotton twist and yarn.

Imports of *sugar* improved by 25 per cent in volume and 11 per cent in value. *Refined sugar* declined by 18 per cent in quantity and 7 per cent in value. Under the arrangements made by the Royal Commission appointed to control sugar supplies, Java sent large quantities of raw sugar to the refineries in the United Kingdom. As a result Java, which is our chief source of supply, was unable to send such large quantities as usual to India and imports thence declined by 14 per cent in quantity and 2 per cent in value. The local prices of "Java white" rose from Rs. 35 per bag of 2 cwt. to Rs. 38½ in May 1916, and to Rs. 44 at the end of November, but thereafter gradually declined the closing price being Rs. 40½. The decrease of 69 per cent in supplies from Mauritius was likewise due to purchases by the Commission on behalf of the French Government.

Imports of *unrefined sugar* advanced by 34 per cent. This was to some extent the natural outcome of the shortage under refined sugar. Two large consignments were received for the first time from the Philippine Islands and landed at Cuddalore and Cocanada. There were no imports either from Java or Mauritius. Imports of *molasses* from Java increased fourfold and were used principally for distillery purposes.

The total imports of *tobacco* improved by 27 per cent in quantity and 46 per cent in value; although the quantity imported was much below the pre-war average yet the value showed a 37 per cent advance. Foreign Imports.

Imports of *raw tobacco* showed a decline of 21 per cent in quantity and 10 per cent in value, those from the United Kingdom and Holland having fallen from 42,703 and 41,426 lb. to 56,594 and 31,705 lb. respectively, while those from Ceylon increased from 56 to 642 lb. A consignment of 1,908 lb. was imported from the United States of America for the first time.

Imports of *cigarettes* improved by 103 per cent in quantity. The United Kingdom supplied 133,044 lb. compared with 65,766 lb. in 1915–16. Egypt sent 906 lb. whereas none was sent in the previous year.

The quantity of *mineral oils* showed a fall of 7 per cent but there was a slight rise, amounting to 1 per cent, in the value.

The figures for *kerosene oil* show a decrease of 20 per cent in quantity and 8 per cent in value. The average price has risen by one anna per gallon in each of the last two years and now stands at 8 annas 4 pies.

Imports of *Borneo oil* showed a further drop of 51 per cent but imports of *American oil* rose by 22 per cent. This increase is due to consignments intended for Pondicherry and Karaikkal being landed at Madras and sent by rail instead of being imported by sea direct. About four-fifths of the kerosene oil was carried in bulk and the remainder in cases. The decrease in the imports of foreign oil was partly met by larger imports of *Burma oil* which increased by about half a million gallons to 19 million gallons valued at Rs. 65·23 lakhs.

Liquid fuel showed an increase of over a million gallons, or 65 per cent.

Lubricating oils showed a rise of 11 per cent. There have been no imports of *foreign petrol* during the past four years. Coastwise imports of *petrol* advanced from 930,496 gallons to 1,337,206 gallons owing to the large number of motor vehicles which have been imported in the last two years.

Textile materials.—The imports of *raw silk* from China showed a recovery and its value amounted to Rs. 4·34 lakhs against Rs. 2·88 lakhs in 1915–16.

Foreign Imports.

Wood and timber.—The cessation of imports of *jarrah wood* from Western Australia brought about a fall from Rs. 4·58 lakhs to Rs. 3·92 lakhs, or 14 per cent, under this head. Imports of *teakwood* from Siam, which ceased during the previous two years, revived and amounted to Rs 1·67 lakhs. Fewer *palmyra rafters* were received from Ceylon.

Miscellaneous.—The imports of *artificial and mineral manures* consisting of basic slag, sulphate of potash, nitrate of soda, muriate of potash, and superphosphates, declined from Rs. 1·31 lakhs to Rs. 1·27 lakhs, the average imports before the war being Rs. 5·36 lakhs.

III. ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value of imports under this head increased from Rs. 884·39 lakhs to Rs. 931·99 lakhs.

Apparel.—The fall of Rs. 2·95 lakhs, or 7 per cent, in the total value under this heading was due to smaller imports of *gold and silver thread* from France which decreased from Rs. 32·30 lakhs to Rs. 29·94 lakhs and resumed normal. The imposition of a higher rate of duty in 1916 does not appear therefore, to have had much effect on the total imports. The imports of gold thread by land from Pondicherry declined from Rs. 6·69 lakhs to Rs. 0·31 lakh. Smaller quantities of *drapery, hats* and *caps* were imported.

Imports of *boots and shoes* further declined from Rs. 1·75 lakhs to Rs. 1·5 lakhs.

Carriages, including cycles and motor cars.—Imports of *carriages and carts* improved from Rs. 0·72 lakh to Rs. 1·60 lakhs. *Motor vehicles and accessories* rose from Rs. 18·63 lakhs to Rs. 30·42 lakhs. The number of motor cars imported increased from 454 to 560. Imports of motor vehicles would have been considerably greater but for the embargo placed on them towards the close of December last. The demand for cheap cars still continues as will be seen from the following table:—

The number of *motor cycles* also went up from 279 to 360 of which 305 were of British manufacture. One hundred and seven *motor wagons* (87 from the United States of America and 20 from the United Kingdom) valued at Rs. 5·69 lakhs were imported against 6 valued at Rs. 0·45 lakh in the previous year.

Imports of *cycles and accessories* further declined from Rs. 4·38 lakhs to Rs. 3·41 lakhs: most of the consignments came from the United Kingdom.

Chemicals, drugs and medicines.—The value of chemicals imported (other than chemical manures) again showed a remarkable increase In 1 14–15, Rs. 11·88 lakhs' worth were imported, in 1915–16 Rs. 16·61 lakhs and this year Rs. 24·41 lakhs. The main factor in this increase was the large quantity of *soda compounds* (especially cyanide of sodium for the Mysore gold mines) which was imported. Eighty-two per cent of the chemicals came from the United Kingdom. Under *drugs and medicines* imports of *camphor* decreased by 31 per cent in quantity and 23 per cent in value; practically the whole coming from Japan.

Proprietary and patent medicines improved from Rs. 1·15 lakhs to Rs 1·87 lakhs

Cutlery, hardware, implements and instruments.—*Clocks and watches* improved from Rs. 1·48 lakhs to Rs. 2·57 lakhs and *cutlery* from Rs. 0·73 lakh to Rs. 1·1 lakhs. Foreign Imports.

There was an increase of 8 per cent in the value of *hardware* but imports were still far below the average imports before the war, showing that other countries have not yet taken the place formerly held by Germany and Austria in this trade. Seventy-three per cent of the imports came from the United Kingdom, 11 per cent from the United States and 4 per cent from Japan.

Instruments and apparatus showed an increase of Rs. 2·48 lakhs to Rs. 13·91 lakhs. This was mainly due to the increase in the number of electrical appliances received.

Dyes and Colours.—When compared with the previous year there was some recovery in *dyeing and tanning substances* imports of which amounted to Rs. 6·81 lakhs against Rs. 2·89 lakhs, but they were far below the pre-war averages. The present position of the imports of alizarine and aniline dyes is given in the following table:—

Imports of *alizarine* amounted to 50,772 lb. valued at Rs. 3·04 lakhs, and these came from the United Kingdom. In 1915–16 10,528 lb. were imported from Germany and 20,720 lb. from Belgium by prize vessels, and there were no imports from the United Kingdom. Prices of both alizarine and aniline were phenomenally high, the average price per lb. of the former rising from As. 8 in 1914–15 to about Rs. 4 in 1915–16 and to Rs. 6 in the current year.

Imports of *aniline dyes* amounted to 49,240 lb. valued at Rs. 2·26 lakhs against 11,355 lb. valued at Rs. 0·43 lakh. A small quantity of *synthetic indigo* amounting to 4 cwt. valued at Rs. 940 was imported from the United Kingdom.

Imports of *paints and painters' materials* improved from Rs. 6·55 lakhs to Rs. 7·07 lakhs.

Glassware and earthenware.—Although there was some recovery in the imports of *glassware* (from Rs. 5·10 lakhs to Rs. 8·25 lakhs), yet they represented only 48 per cent of the annual average imports before the war. The United Kingdom supplied 53 per cent and Japan 20 per cent against 43 and 33 per cent respectively, in the previous year. Before the war the shares of these two countries were only 11 and 1 per cent; Austria-Hungary, Germany and Belgium's shares being 55, 15 and 13 per cent respectively. Imports of *bottles and phials* rose in value from Rs. 1·36 lakhs to Rs. 2·35 lakhs and those of *sheets and plates* from Rs. 1·25 lakhs to Rs. 3·02 lakhs. Imports of *glass bangles* and *beads*, including *false pearls*, have been considerably affected by the war: their average imports before the war were Rs. 7·48 lakhs and Rs. 2·8 lakhs respectively, but have now dwindled down to Rs. 0·33 and 0·92 lakh respectively.

Imports of *earthenware* amounted to Rs. 2·15 lakhs compared with Rs. 2·63 lakhs in 1915–16.

Imports of *machinery* improved by Rs. 7·15 lakhs, or 17 per cent. With the exception of prime-movers (other than electrical), boilers and sugar machinery, all the sub-heads showed increases. The increase under 'electrical machinery was due to the larger demands for electric installations, and that under sewing and knitting machines to local stocks having reached a low level. The United Kingdom sent 84 per cent of the machinery and the United States of America 12 per cent.

The extension of Government control over iron and steel industries in the United Kingdom, the high prices at the supplying centres and the shortage of tonnage, all combined to bring about a decline of 20 per cent in quantity. The urgent demand for the available material however brought about a rise of 13 per cent in value; and the local price of iron has more than doubled since the commencement of the war. During the five years ending 1913–14 the average value of iron was Rs. 140 per ton and rose to Rs. 170 in 1914–15, to Rs. 220 in 1915–16 and to Rs. 310 in 1916–17. Previous to the war the United Kingdom supplied 45 per cent of the iron and steel imported into this Presidency. This share increased to 66 per cent in 1914–15, to 70 per cent in 1915–16 and to 80 per cent in 1916–17. Belgium prior to the war sent 40 per cent. Supplies from America have fallen from 22 per cent in 1915–16 to 13 per cent.

Imports of *bar iron* improved by 58 per cent in volume and 131 per cent in value. The prevailing high prices of imported bars gave an impetus to bars of Pondicherry manufacture and these rose from 4,400 tons valued at Rs. 5·23 lakhs to 5,015 tons valued at Rs. 8·83 lakhs. **Foreign Imports.**

On the other hand *steel bars* showed a decline of 70 per cent and *plates and sheets* of 36 per cent. The increase under *pipes and tubes* was due to larger imports for the Madras water-works, and that under *hoops and strips* to larger demands for baling cotton and coir yarn.

There was an unprecedented demand for *copper* both in Europe and America for the huge munition requirements and consequently exports to India diminished greatly. There was a fall of 63 per cent in quantity and 38 per cent in value. The price in England of standard copper rose from £100 per ton in February 1916 to £145 in the middle of May but receded to £98 in July and again rose to £153 early in February 1917. The United Kingdom supplied 82 per cent against 73 per cent in 1915–16 and Japan 13 per cent against 7 per cent. Imports of *yellow metal sheets* showed a decline of 61 per cent and those of *braziers and sheets* 86 per cent. The opening price per candy of 500 lb. of yellow metal sheets was Rs. 375 and the closing price Rs. 505. Imports of *tin* expanded by 31 per cent as a result of larger receipts from the Straits Settlements. Large quantities of *lead* sheets for tea chests were received from the United Kingdom and imports of this metal increased by 11 per cent. Only 2 cwt. of *aluminium*, valued at Rs. 347, were imported.

The total value of imports of *paper and pasteboard* amounted to Rs. 38·53 lakhs against Rs. 22·06 lakhs, an increase of 74 per cent. This increase in value was the result of inflated prices of the articles whereas the quantities imported declined.

Foreign Imports.

The decrease in the quantity of printing paper was the net result of smaller imports from the United Kingdom, Norway and Sweden, and larger imports from the United States. The market value for the last year has been about As. 6 per lb. against the pre-war average of As. 2–4 per lb. The decrease in the imports from Norway and Sweden was due to abnormal imports of cheaper kinds of paper in 1915–16, and the increase in the case of imports from the United States was due to the merchants seeking a new source of supply in anticipation of shortages from the United Kingdom as a result of the restrictions placed there on imports of paper-making materials. Of the total imports of paper and pasteboard the United Kingdom's share was the same as in the previous year, viz., 71 per cent and that of Norway and Sweden 16 per cent against 23 per cent in 1915–16. The shares of the United States and Japan, whose trade in previous years in these articles was inconsiderable, amounted to 7 and 4 per cent respectively.

Imports of *stationery* improved from Rs. 7·02 lakhs to Rs. 10·6 lakhs of which Rs. 8·26 lakhs' worth came from the United Kingdom and Rs. 1·47 lakhs' worth from Japan as against Rs. 6·14 lakhs' and Rs. 0·41 lakh's worth respectively, in 1915–16.

Railway plant and rolling-stock.—The total imports again declined from Rs. 68·51 lakhs to Rs. 36·56 lakhs, or by 48 per cent, *carriages and wagons* falling from Rs. 30·27 lakhs to Rs. 18·71 lakhs, *locomotive engines and tenders* from Rs. 23·35 lakhs to Rs. 4·03 lakhs and *materials for construction* from Rs. 14·89 lakhs to Rs. 12·82 lakhs. Of the total imports 75 per cent came from the United Kingdom and 25 per cent from the United States against 95 and 2 per cent respectively, in 1915–16.

Yarns and textile fabrics.—The value of imports under this head improved from Rs. 386·10 lakhs to Rs. 454·42 lakhs.

The total value of imports of *cotton goods*, representing 38 per cent of the total foreign imports, increased by 17 per cent. The market at Madras showed considerable fluctuations during the year and it often happened that piece-goods, bought in a moment of considerable activity, actually arrived to a deadly dull market. The chief feature of the year was the speculative purchases of coloured yarns and goods owing to the general view that the scarcity of dye stuffs would cause a considerable rise in the price of dyed goods. Large stocks were carried forward from the previous year's purchases and these, added to the continual rise of prices in Manchester tended to reduce the imports in grey and white piece-goods. Fairly brisk sales took place as usual from September to November and though prices were high a fair amount of

buying from Manchester took place to replenish stocks. A sudden rise in prices at home however, put further buying out of the question and business practically ceased from January to March 1917. During these last months local prices rose 25 to 50 per cent owing to shortages of certain qualities in the bazaar. Foreign Imports.

Imports of *cotton twist and yarn* declined by 29 per cent in quantity but rose by 11 per cent in value, the average value per lb. having risen from Rs. 1-1-0 to Rs. 1-8-0 *Mule yarn* declined by 56 per cent, the high rates prevailing in Manchester for mule yarn, coupled with the absence of dyes to colour these grey yarns, enabled Indian mills to compete successfully in producing yarns, especially counts 31 to 40, at a cheaper rate than home supplies. Under *coloured yarns*, the common counts (1 to 20 and 31 to 40) were in good demand and as there were no dyestuffs to colour the country-made yarns weavers often resorted to using imported 40s doubled in place of the usual country-dyed 20s. Imports of other descriptions of yarn failed to maintain the improvement of the previous year and declined by 24 per cent.

The total imports of *cotton piece-goods* further decreased by 19 per cent in quantity, but increased by 20 per cent in value. The decrease in quantity was the net result of smaller imports of *grey and white piece-goods*, partly set off by larger imports of *coloured goods*, which expanded by 23 per cent in quantity and 89 per cent in value. *Saris and scarves* rose by Rs. 27·4 lakhs, *prints* and *chints* by Rs. 13·99 lakhs, *cambrics* including *madapollams*, by Rs. 2·75 lakhs and *shirtings* by Rs 1·99 lakhs. Under *grey goods* there was a decline of 38 per cent in quantity and 16 per cent in value. *Longcloths* and *shirtings* declined by Rs. 15·06 lakhs owing to the substitution of country-made cloth manufactured in the mills at Bombay, Sholapur, Ahmedabad, etc. *Dhotis, saris and scarves* fell away by Rs. 9·36 lakhs; most of the poorer classes favour the use of grey dhotis with coloured borders and the coarser Indian woven cloth with plenty of substance in it suits their requirements admirably. *Jaconets, madapollams, mulls and cambrics* improved by Rs. 7·48 lakhs, and suffered less than other grey goods because it is not so easy to replace these fabrics, made of finer yarn, by locally-made substitutes. Under *white goods jaconets* including *madapollams*, increased by Rs. 16·30 lakhs, and *dhotis, saris and scarves*, which are not produced locally to any extent, increased by Rs. 1·85 lakhs while *nainsooks* decreased by Rs. 5·36 lakhs and *longcloths and shirtings* by Rs 3·94 lakhs, as these can be replaced easily by bleaching the grey cloths and therefore when prices are high these goods always show a falling off. The net result shows an increase of Rs. 9·61 lakhs, or 16 per cent, in the value of white goods although the quantity declined by 19 per cent. The considerable increase under *coloured goods* is due to the continued demand arising from the desire to have bright coloured goods whatever the price may be. As it has been very difficult to obtain dyeing materials locally there have been increased importations from home.

The trade in cotton piece-goods was almost entirely confined to the United Kingdom, only 1 per cent coming from other sources.

There was an increase under *other cotton fabrics* as there were larger imports of hosiery from the United Kingdom and Japan and sewing thread from the United Kingdom.

Haberdashery and millinery.—Imports improved from Rs. 6·73 lakhs to Rs. 7·37 lakhs: its. 5·05 lakhs' worth came from the United Kingdom, Rs. 0·96 lakh's worth from Japan and Rs. 0·65 lakh's worth from France.

Jute and wool.—Imports of *jute manufactures*, which consisted almost entirely of reimports of old rice gunny bags from Ceylon, rose from Rs 13·99 lakhs to Rs. 15·4 lakhs There were large consignments of woollen piece-goods from the United Kingdom and therefore imports of *woollen manufactures* expanded from Rs. 2·85 lakhs to Rs. 8·35 lakhs.

Other minor items.—Imports of *arms, ammunition and military stores* improved from Rs. 9·83 lakhs to Rs 10·85 lakhs.

Imports of *cement*, mainly from the United Kingdom, declined from Rs. 16·04 lakhs to Rs. 8·58 lakhs owing to the high cost and the difficulty of obtaining supplies. Imports of *safety matches* declined from Rs. 6·13 lakhs to Rs. 3·94 lakhs and other

Foreign Imports.

matches from Rs. 5·18 lakhs to Rs. 1·41 lakhs. Japan sent Rs. 3·01 lakhs' worth of matches, Sweden Rs. 1·21 lakhs, and Norway Rs. 0·63 lakh against Rs. 4·40, Rs. 4·77 and Rs. 1·60 lakhs respectively, in 1915–16. Imports of *soap* improved from Rs. 12·81 to Rs. 17·33 lakhs. Household and laundry soaps increased by Rs. 2·71 lakhs and toilet soap by Rs. 1·89 lakhs, the imports being almost entirely from the United Kingdom.

IV. MISCELLANEOUS AND UNCLASSIFIED.

The total value of imports under this head rose from Rs. 33·37 lakhs to Rs. 37·17 lakhs.

Imports of *living animals* showed a decrease of Rs. 0·4 lakh. One thousand seven hundred and thirty-four horses valued at Rs. 9·85 lakhs were imported against 2,180 valued at Rs. 10·38 lakhs in 1915–16. One thousand six hundred and ninety horses came from Victoria, 30 from the Straits Settlements, and 14 from Ceylon.

Articles imported by post amounted to Rs. 26·13 lakhs against Rs. 21·72 lakhs. The United Kingdom sent to the value of Rs. 12·32 lakhs, Japan Rs. 4·91 lakhs, Ceylon Rs. 4·88 lakhs, the Straits Settlements Rs. 1·62 lakhs, and France Rs. 1·33 lakhs against Rs. 5·65, 3·45, 7·65, 1·36 and 1·79 lakhs respectively, in the previous year.

The exports of *grain and pulse* declined by 18 per cent in quantity and 19 per cent in value. Exports of *paddy* (rice unhusked) increased by 75 per cent in quantity and 83 per cent in value, while those of *rice* (rice husked) declined by 23 per cent in quantity and 21 per cent in value. Shipments of rice and paddy to Ceylon represented 90 per cent of the total exports under this head and declined by 19 per cent both in quantity and value. This was partly due to want of tonnage and partly to larger supplies from Burma to that colony. The average value of rice rose from Rs. 8–3–9 to Rs. 8–7–5 per cwt. Shipments to the Straits Settlements declined by 22 per cent and those to Mauritius by 9 per cent. The variations under *other grains* are small and call for no remarks

There was a very slight decline in the quantity of *spices* exported, but the value rose by 26 per cent. During the first nine months of the year under review shipments of *pepper* fell away by 47 per cent in quantity and 21 per cent in value when compared with those in the corresponding period of 1915–16. During the last three months however, shipments increased sixfold in quantity and ninefold in value. The final figures for the whole year showed a decline of 9 per cent in quantity and a rise of 36 per cent in value, the average value having risen from As. 4–8 to As. 7–0 per lb. The 1916 crop was a good one and the demand was very brisk; consequently pepper fetched high prices. Shipments to the United States and the United Kingdom decreased from Rs. 18·24 and Rs. 15·23 lakhs to Rs. 16·90 and Rs. 14·21 lakhs respectively, the pre-war average shipments to those countries being Rs. 5·34 and Rs. 3·17 lakhs. Shipments to France and Italy however, showed a marked recovery from Rs. 1·51 and Rs. 2·18 lakhs to Rs. 13·21 and Rs. 4·95 lakhs respectively.

Foreign Exports.

Exports of *ginger* receded by 33 per cent in quantity and 25 per cent in value.

There were larger shipments of *chillies* to Ceylon and the Straits Settlements.

Sugar.—There was a great recovery in the exports of *sugar* (mostly unrefined sugar) from 60,897 cwt. valued at Rs. 5·17 lakhs to 220,684 cwt. valued at Rs. 17·08 lakhs and exports almost reached the level of 1912–13. The area of sugarcane under cultivation increased by 20 per cent and the total yield by 31 per cent. The outturn would have been still larger had not the crop suffered by the unusually heavy north-east monsoon rains in the Circars and by the devastations of the severe cyclone in South Arcot in November 1916. The price of *jaggery* in 1914–15 and 1915–16 in different districts varied from 25 to 60 per cent above that which prevailed in 1913–14, but in 1916–17 this high level was not maintained and the average price fell during the year from Rs. 8–1–0 to Rs. 7–8–0 per cwt. Shipments to Ceylon improved from Rs. 3·63 lakhs to Rs. 14·77 lakhs. A large quantity of palm jaggery was exported to Ceylon on account of Ceylon sugar refineries. Shipments of unrefined sugar to the United Kingdom, which before the war amounted to Rs. 8·5 lakhs, practically ceased.

Tea.—The total exports amounted to 24·91 million lb. valued at Rs. 175·65 lakhs against 25·84 million lb. valued at Rs. 173·76 lakhs, a decrease of 4 per cent in quantity and an increase of 1 per cent in value. The decrease is ascribed to want of tonnage. In March restrictions were placed on exports to the United Kingdom but the effect of these restrictions will only be felt in 1917–18. The average price rose from As. 10–9 to As. 11–4 per lb. The acreage under tea was reported to be 73,402 in 1916 against 68,238 acres in 1915. Shipments to the United Kingdom and Ceylon declined from 82 and 16 per cent to 67 and 16 per cent respectively, while those to Canada rose from 1 per cent to 17 per cent.

The season's crop was delayed by tardy blossoming showers and late rains in October and November, but when it was harvested it turned out better than that of the previous season. Prices which were high at the beginning of the season, subsequently declined, and as freights to consuming countries were also high, exports declined 17 per cent in quantity and 18 per cent in value. During March 1917 more than half the quantity exported during the whole year was shipped. As in the previous year 48 per cent went to the United Kingdom whereas France increased her receipts from 24 to 26 per cent.

Tobacco.—Exports of *tobacco* increased by nearly a million lb. and amounted to 3·96 million lb. The value likewise rose by almost a lakh and reached Rs 9 51 lakhs. The trade in *leaf tobacco* amounted to 3·44 million lb. valued at Rs 6 11 lakhs. As usual the chief consumers were the Straits Settlements and the Federated Malay States. A quantity of 850,120 lb., valued at Rs. 1·14 lakhs, was sent to the United Kingdom. Shipments of *cigars*, 80 per cent of which went to the Straits Settlements and the Federated Malay States, further declined from 748,903 lb. to 466,346 lb. in quantity and from Rs. 4·25 lakhs to Rs. 3·11 lakhs in value. Higher grade cigars to the value of Rs. 0·82 lakh were exported to the United Kingdom against Rs. 0·66 lakh's worth in 1915–16.

Exports of *raw hides* from the Madras Presidency are comparatively unimportant, but there was an improvement of 11 per cent in quantity and 31 per cent in value. The whole quantity went to the United Kingdom.

Raw skins, consisting almost entirely of goat skins, expanded by 15 per cent in weight and 75 per cent in value, the average value having risen from As. 14–4 to Rs. 1–6–0 per lb. The marked increase in price is ascribed to the large demand for tanned skins at the London sales which reacted on raw skins locally. The share of the United Kingdom rose from 18 to 32 per cent, while that of the United States fell from 53 to 36 per cent.

Metallic ores.—Shipments of *manganese ore* to the United Kingdom, which as usual formed the chief item under this head, amounted to 9,451 tons valued at Rs. 1·05 lakhs against 2,000 tons valued at Rs. 0·18 lakh.

Oils.—There was again a considerable increase in the quantity of oil exported and the value rose by Rs. 24·14 lakhs to Rs. 77·82 lakhs.

Animal oils, consisting almost entirely of fish oils, have fallen away very considerably. In 1914–15 220,839 gallons were shipped, in 1915–16 23,080 gallons, but in the year under review only 10,500 gallons, valued at Rs. 6,000, were shipped. Under *essential oils lemongrass oil* from South Malabar improved from 30,975 gallons to 34,993 gallons valued at Rs. 4·81 lakhs. The value of shipments to France more than doubled while those to the United States and the United Kingdom both declined. Other essential oils, consisting mostly of *sandalwood oil*, amounted to 4,091 gallons valued at Rs. 7·73 lakhs, practically the whole of which went to the United Kingdom.

Under *vegetable oils*, exports of *coconut oil*, representing more than half the quantity of all oils, amounted almost to the same quantity as in the previous year, namely 2·02 million gallons, but the value rose from Rs. 38·57 lakhs to Rs. 42·58 lakhs, a rise of 10 per cent or from Rs. 1–14–0 to Rs. 2–2–0 per gallon. The value of shipments to the United Kingdom improved from Rs. 21·64 lakhs to Rs. 34·25 lakhs, the average exports before the war being valued at Rs. 6·15 lakhs. Shipments to the United States, which before the war were valued at Rs. 5·60 lakhs, almost doubled in 1915–16, but declined to Rs. 7·69 lakhs in the year under review as the export to that country has been prohibited since July 1916.

Exports of *castor oil* increased from 334,305 gallons valued at Rs. 5·02 lakhs to 1,016,905 gallons valued at Rs. 14·30 lakhs. The United Kingdom absorbed to the value of Rs. 13·07 lakhs against Rs. 3·92 lakhs. Shipments of *groundnut oil* also increased from 262,641 gallons to 443,812 gallons valued at Rs. 4·18 and 5·94 lakhs respectively. The increase was particularly marked in the case of consignments to the United Kingdom.

Seeds form one of the principal exports from the Madras Presidency and before the war were exported in a larger quantity than any other produce. In 1916-17 the quantity declined by 44 per cent and the value by 25 per cent and represented only 8·34 per cent of the total foreign exports.

Groundnuts.—The trade in groundnuts represented 63 per cent of the total exports of seeds. Before the war the exports annually averaged 197,818 tons valued at Rs 344 49 lakhs and France was the chief consumer. During 1914-15 there was a decline of 42 per cent in quantity and 45 per cent in value, but much of the unshipped balance went to Calcutta. In 1915-16 however, the trade with foreign countries revived and large consignments of nuts were sent to Marseilles. The shortage of tonnage to Mediterranean ports gave rise to considerable anxiety as to the disposal of the season's harvest, which was above the average, and prices dropped considerably. The position improved somewhat towards the close of the official year and an outlet was found by considerable exports to the Straits Settlements and coastwise to Bengal and by railing to Bombay for shipment thence and consequently the prices hardened to some extent. The figures for the whole year disclose a fall of 66 per cent in quantity and 49 per cent in value. The high prices prevailing in

1915-16 induced cultivators to sow more crops and the area under groundnuts in 1916-17 increased by 60 per cent. This is particularly marked in the Deccan where groundnut cultivation is extending to black cotton soils. The estimated yield is 30 per cent above that of the previous year and is given as 825,000 tons. At the beginning of April 1916 the price was Rs. 35 per candy of 500 lb., at the end of that month it was Rs. 38-8-0, but in the middle of July it fell to Rs. 34 and again rose to Rs. 37 at the end of September from which date there was, on the whole, a gradual decline, the closing price being Rs. 26-8-0. Fully 90 per cent of the exports of groundnuts was consigned to Marseilles, and it is interesting to note the phenomenal rise in freight rates to that port since the outbreak of the war. In July 1914 the rate quoted was 25*s.* 9*d.* per ton and in November 34*s.* 10*d.* In November 1915 125*s.* was quoted, but by November 1916 as much as 275*s.* per ton was paid. Since then rates have been nominal but as much as 450*s.* per ton has been paid. Exports to France (59,554 tons) declined by 59 per cent in quantity and 52 per cent in value. Shipments to Italy and the United Kingdom increased by 14 and 19 per cent. Exports coastwise remained about the same and amounted to 25,286 tons.

The total quantity, both foreign and coasting, shipped at Madras was 56,819 tons compared with 97,535 tons in 1915-16, a decrease of 42 per cent.

Exports from Pondicherry amounted to 19,563 tons against 42,238 tons in 1915-16, a decrease of 54 per cent.

Copra or coconut kernels.—Inasmuch as Germany was formerly by far the largest importer of copra, with Belgium and Russia standing next, it was only to be expected that the complete cessation of exports to these countries would have a very serious effect on the trade in this product. This was early realised and manufacturers in England turned their attention to producing "vegetable butter." They also bought large quantities of coconut oil. France increased her imports of copra and, whereas before the war only 8 per cent went to that country, during the last two years her share has been 56 and 83 per cent and the United Kingdom's share 43 and 12 per cent respectively. During 1916-17 exports of copra improved by 61 per cent in quantity and 66 per cent in value, the average value having risen from Rs. 18-4-0 to Rs. 18-11-0 per cwt.

The following table shows the foreign export trade in the several products of the coconut palm :—

Essential oilseeds.—In 1915-16 exports of *coriander seed* to Ceylon declined but this trade has since revived and consequently shipments under this head increased by 23 per cent.

Foreign Exports.

Castor seed.—For the past two seasons the castor seed crop has been very poor and exports have now dropped far below those of any previous year and were only about half those of 1915–16, though the quantity in that year was the smallest on record. The situation however is not as bad as it would appear as much of the seeds which were formerly crushed in Europe are now crushed in India and the very large quantities of castor oil exported during the last two years have more than compensated for the small quantity of castor seeds shipped.

Cotton seed.—There was a decrease of 15 per cent in the quantity of *cotton seed* exported and the increase to the United Kingdom noticed last year was not maintained.

Sesamum (till or jinjili).—The cultivation of *jinjili* declined by 16 per cent and was supplanted by groundnuts and indigo. The outturn was 12 per cent less than in the previous year and exports decreased 60 per cent in quantity and 58 per cent in value.

Niger seed.—Exports in 1914–15 amounted to 1,762 tons but declined in 1915–16 to 310 tons and in 1916–17 to 100 tons valued at Rs. 14,000.

Textile materials.—The total value under this head improved from Rs. 196·27 lakhs to Rs. 268·12 lakhs.

Exports of *raw cotton* showed a decline of 2 per cent in volume and a rise of 37 per cent in value. Shipments during the first nine months amounted to 548,080 cwt. valued at Rs. 237·04 lakhs against 504,693 cwt. valued at Rs. 153·64 lakhs, an increase of 8 per cent in quantity and 54 per cent in value. Owing to scarcity of tonnage shipments during January 1917 amounted only to 4,063 cwt. against 14,737 cwt. in January 1916 and there were no shipments during February and March. The area under cotton cultivation was estimated at 2,288,000 acres, an increase of 11 per cent. The estimated yield was 877,000 bales, an increase of 6 per cent.

The distribution and output of the different trade descriptions of *cotton* were as follows:—

There was a further rise in prices. The spot price of middling American cotton at Liverpool, which was 5·7*d.* in April 1915 and 7·6*d.* in April 1916, rose to 12·1*d.* at the close of November but declined to 10·3*d.* at the beginning of February 1917 and again rose to 12·6*d.* at the close of the year. The local average *f.o.b.* price per candy of 500 lb. of cotton Westerns was Rs. 180 in April 1916 and Rs 243 in March 1917. Shipments to Japan expanded by 64 per cent while those to the United Kingdom and Italy declined by 80 and 19 per cent respectively. The increase in the exports to Japan was due partly to low freights and partly to the expansion in the trade in cotton textiles, yarns, hosiery and other cotton goods in that country, while the decrease in the case of the United Kingdom and Italy is attributed to high freights and scarcity of tonnage. As in the case of groundnuts, large quantities of raw cotton were sent by rail to Bombay for shipment thence to foreign countries. Foreign Exports.

Hemp, raw.—Exports declined slightly from 2,950 tons to 2,903 tons while the value rose from Rs. 7·85 lakhs to Rs. 9·53 lakhs. Eighty-five per cent of the exports went to the United Kingdom and 14 per cent to Italy.

Jute, raw.—No jute, properly so called, is exported from this Presidency but the *Hibiscus* fibre usually grown in the coast districts north of Madras is technically known as jute, e.g., Bimlipatam, Gopalpore and Kottapatam jute, and is classified as such. Exports of this fibre improved from 5,867 tons to 6,090 tons in quantity and from Rs. 12·60 lakhs to Rs. 16·84 lakhs in value. Exports were almost entirely restricted to the United Kingdom.

Wood and timber.—With an increase of Rs. 1·25 lakhs the total value stood at Rs. 15·44 lakhs. Exports of *teak* and other timber amounted to Rs. 1·84 lakhs against Rs. 1·92 lakhs and of *sandalwood* to Rs. 13·59 lakhs against Rs. 12·27 lakhs. The United Kingdom and the United States received sandalwood to the value of Rs. 7·66 and 5·48 lakhs respectively, against Rs. 3·52 and 8·28 lakhs in the previous year. The average value of exports to Germany before the war was Rs. 5·85 lakhs.

Exports of *raw rubber* have shown large increases every year and in 1916–17 further improved by 31 per cent in quantity and 19 per cent in value. This was brought about by larger areas of rubber trees coming into bearing. Shipments to the United Kingdom, Ceylon and the United States amounted to Rs. 77·89, 29·70 and 6·57 lakhs respectively, against Rs. 65·65, 28·90 and 3·39 lakhs in 1915–16.

Fibre for brushes and brooms, consisting chiefly of palmyra fibre shipped from Cocanada, Tuticorin and Calicut, amounted to Rs. 19·05 lakhs against Rs. 17·28 lakhs in 1915–16, the chief consumer being the United Kingdom.

Exports of *manures* amounted to Rs. 14·91 lakhs against Rs. 8·05 lakhs. Shipments of *bones* amounted to Rs. 3·44 lakhs, *fish manure and guano* to Rs. 8·82 lakhs and *other manures* to Rs. 2·65 lakhs against Rs. 3·03, 4·16 and 2·80 lakhs respectively, in 1915–16. The increase under fish manures was due to larger catches of sardines for manure.

The quantity of *mica* exported improved from 257 to 279 tons, or by 9 per cent, and the value from Rs. 3·76 lakhs to Rs. 6·05 lakhs, or by 61 per cent. Shipments were confined to the United Kingdom.

III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value under this head increased from Rs. 862·03 lakhs to Rs. 963 lakhs.

Chemicals, drugs and medicines.—Exports of *cinchona bark* amounted to 688,143 lb. valued at Rs. 1·73 lakhs against 607,807 lb. valued at Rs. 1·30

Foreign Exports.

lakhs in 1915–16. Shipments were confined to the United Kingdom. Consignments of *nux vomica* declined from 2,225 tons valued at Rs. 3·28 lakhs to 2,172 tons valued at Rs 3·53 lakhs and were consigned to the United Kingdom and the United States. Shipments of *senna* have again shown a considerable increase, and rose from 1,529 tons to 4,753 tons and from Rs. 7·49 lakhs to Rs. 29·05 lakhs. Rupees 20·14 lakhs' worth was sent to the United Kingdom compared with Rs. 5·80 lakhs' worth in 1915–16 and the United States and France increased their supplies from Rs. 0·91 and 0·55 lakhs to Rs. 4·41 and 3·03 lakhs respectively. Large crops of *senna* are grown in the Tinnevelly and Ramnad districts, and early in the year high prices were offered in England even for the lower grades of leaves and pods. The market at home however became heavily overstocked with senna of poor quality and this will probably affect the exports for the year 1917–18.

Dyes and colours.—The remarkable expansion referred to in last year's report under the head of *dyeing and tanning substances* was not maintained and exports declined from Rs. 116·69 lakhs to Rs. 73·84 lakhs.

Exports of *indigo* receded from 1,308 tons to 614 tons, or by 53 per cent, and from Rs. 108·77 lakhs to Rs. 67·55 lakhs, or by 38 per cent. The average value rose from Rs. 416 to Rs. 550 per cwt. Shipments to the United Kingdom, representing 60 per cent of the total exports, declined from Rs. 89·93 lakhs to Rs. 41·86 lakhs, while those to Egypt, the United States and Italy improved from Rs. 9·55, 3·95 and 1·87 lakhs to Rs. 15·26, 6·02 and 2·62 lakhs respectively. The market opened with brisk demands from Egypt and with enquiries from the United States, and competitors were forced to pay higher prices every day. Owing to large stocks in London, offers from that centre were not encouraging and the high price of indigo, coupled with high freight rates, restricted trading. Speculative shipments to Egypt however continued. The area under indigo in 1916–17 is reported to have been 449,900 acres, or double the actual area sown in 1915–16. The yield was estimated at 2,954 tons, or about 2½ times last year's estimate. Heavy rains in the Guntur district and the Deccan caused serious damage to the crop so that the yield per acre has been poor and the quality is reported to be indifferent. In the North Arcot, Salem and Chittoor districts however, the harvest has been favourable. Exports coastwise declined from 106 tons to 68 tons.

Exports of *myrobalans*, the major portion of which went to the United Kingdom, declined from Rs. 2·32 lakhs to Rs. 0·48 lakh. Exports of *turmeric* rose from Rs. 3·83 lakhs to Rs 4·73 lakhs. This was due to the United States taking fifty times as much as in the previous year. Shipments to Ceylon increased whilst those to the Straits Settlements decreased.

Hides and skins, tanned or dressed, and leather.—The total exports of *tanned hides and skins* on private account decreased by 16 per cent in quantity but increased by 30 per cent in value. Exports on private and Government account combined showed an increase of 24 per cent in weight and 70 per cent in value.

The above table includes 131,745 cwt. of tanned cow hides valued at Rs. 178·63 lakhs purchased on Government account since September 1916 and shipped by private exporters. In the general returns these amounts have been classified under Government stores; for purposes of comparison however, they are taken into consideration here. The total shipments of *tanned hides* showed an expansion of 23 per cent in quantity and 54 per cent in value. If we exclude the cow hides referred to above these exports of tanned hides declined by 36 per cent in weight and 21 per cent in value. Foreign Exports.

The increased demand for war materials improved the trade under *cow hides* by 22 per cent in quantity and 53 per cent in value. High prices at home induced larger shipments of tanned *buffalo hides* and these "buffs" rose by 29 per cent in quantity and 61 per cent in value.

Exports of all tanned hides were almost entirely confined to the United Kingdom

Exports of *tanned skins* improved by 27 per cent in weight and 88 per cent in value. There was an extraordinary demand from Europe and America during the year under review and prices rose steadily until December 1916. At the end of the year the export of tanned skins was prohibited to the United States of America, and from January 1917 a fall has taken place. The high prices obtainable for goat and sheep skins however, prompted tanners to tan skins on a far larger scale, and new tanneries were opened. Under *goat skins* the United Kingdom increased her imports by 25 per cent and the United States by 13 per cent.

Under *sheep skins* the United Kingdom received skins valued at Rs. 198·81 lakhs, the United States Rs. 36·84 lakhs, Japan Rs. 15·08 lakhs, and the Straits Settlements Rs. 4·36 lakhs against Rs 48·73, 19·66, 8·86 and 3·69 lakhs respectively, in the previous year.

Calf skins and other skins improved from 7,189 cwt. to 12,470 cwt. owing to increased demand and these were, as usual, almost entirely confined to the United Kingdom.

The following table shows in detail the quantity and average price of the different kinds of hides and skins exported :—

The particulars given in the above table are for the whole Presidency and relate to *shipping* entering from, and clearing to, foreign ports. Vessels calling at Madras *en route* to Calcutta are treated as foreign entries and coasting clearances and *vice versa*.

Previous to the war the total tonnage averaged 3·96 million tons per annum. In 1914–15 there was a decrease of a million tons and during the past two years a further drop to 2·28 million tons. On the other hand the actual number of vessels has steadily increased and amounted to 4,161 against a pre-war average of 3,343. The average tonnage per vessel consequently declined and was 549 tons against 677 in the previous year and less than half the average for the five years ending 1913–14. This result was due to the larger number of Native craft now employed. Excluding the ferry steamers plying daily between Dhanushkodi and Talaimannar, the average tonnage of British vessels entering and clearing was 1,835 and that of foreign vessels 2,341 tons. Of the 28 vessels which entered under foreign colours five were Norwegian, five Dutch, four Russian, four Swedish, two French, two Greek, two Italian, one American and one Arabian. The tonnage of British vessels amounted to 87 per cent of the whole against 86 per cent in 1915–16. British Indian vessels and native craft claimed 7 per cent against 5 per cent in the previous year. The number of Native craft engaged in foreign trade rose from 1,020 to 1,289 and their tonnage from 63,980 to 88,431.

Foreign trade.

Of the aggregate trade in the Madras Presidency the *British Empire's* share, which before the war amounted to 63 per cent, improved to 75 per cent both in 1915–16 and 1916–17. The value of *imports* advanced by Rs. 63·35 lakhs, or by 10 per cent, and that of *exports* by Rs. 68·2 lakhs, or by 4 per cent, giving a total increase of trade of Rs. 161·55 lakhs, or 6 per cent. The trade with other countries also improved by Rs. 103·84 lakhs, or by 12 per cent, made up of Rs. 39·04 lakhs under *imports* and Rs. 64·8 lakhs under *exports*.

THE BRITISH EMPIRE.

United Kingdom.—The trade with the United Kingdom represented 48 per cent of the total trade compared with 47·33 per cent in 1915–16 and expanded by Rs. 152·54 lakhs, or 2 per cent. If we include the tanned cow hides shipped under Government control the total trade would show an expansion of Rs. 331·17 lakhs, or 19 per cent. Under foreign *imports* 67 per cent came from the United Kingdom against 66 per cent in 1915–16 and the value increased by Rs. 94·19 lakhs, or 12 per cent. There were larger receipts of cotton piece-goods (+ Rs. 45·77 lakhs), cotton twist and yarn (+ Rs. 16·28 lakhs), metals (+ Rs. 11·93 lakhs), paper and pasteboard (+ Rs. 11·55 lakhs), articles by post (+ Rs. 6·67 lakhs), woollen goods (+ Rs. 5·45 lakhs), chemicals (+ Rs. 4·99 lakhs), dyeing and tanning substances (+ Rs. 4·94 lakhs), soap (+ Rs. 4·71 lakhs), provisions (+ Rs. 3·80 lakhs), machinery (+ Rs. 3·21 lakhs), arms and ammunition (+ Rs. 2·69 lakhs), tea chests (+ Rs. 2·22 lakhs), tobacco (+ Rs. 2·21 lakhs), glass and glassware (+ Rs. 2·21 lakhs), stationery (+ Rs. 2·12 lakhs) and drugs and medicines (+ Rs. 1·57 lakhs). These increases were partly counterbalanced by smaller receipts of railway plant and rolling-stock (— Rs. 58·74 lakhs), cement (— Rs. 6·23 lakhs), patent fuel (— Rs. 1·62 lakhs) and cycles (— Rs. 1·06 lakhs). *Exports* to the United Kingdom represented 39 per cent of the total exports compared with 38 per cent in 1915–16 and improved by Rs. 58·35 lakhs, or 6 per cent. There were increased shipments of tanned skins (+ Rs. 135·66 lakhs), oils (+ Rs. 33·28 lakhs), senna leaves (+ Rs. 14·34 lakhs), raw rubber (+ Rs. 14·24 lakhs), raw goat skins (+ Rs. 11·68 lakhs), coir manufactures (+ Rs. 9·85 lakhs), raw jute (+ Rs. 4·28 lakhs), sandal-wood (+ Rs. 4·16 lakhs), unwrought leather (+ Rs. 2·99 lakhs), mica (+ Rs. 2·30 lakhs) and leaf tobacco (+ Rs. 1·12 lakhs). Against these, decreases were recorded under tanned hides—excluding cow hides shipped on Government account— (— Rs. 51·44 lakhs), indigo (— Rs. 48·07 lakhs), raw cotton (— Rs. 24·05 lakhs), tea (— Rs. 21·03 lakhs), seeds (— Rs. 12·72 lakhs), coffee (— Rs. 7·63 lakhs), raw hemp (— Rs. 3·19 lakhs), spices (— Rs. 2·01 lakhs), myrobalans (— Rs. 1·82 lakhs) and rice (— Rs. 1·4 lakhs).

Ceylon.—The *import* trade from *Ceylon* advanced by Rs. 5·63 lakhs due to increased arrivals of betelnuts, jute gunny bags and raw skins, while the *export* trade declined by Rs. 41·06 lakhs in consequence of smaller shipments of rice and paddy (— Rs. 71·92 lakhs), fresh vegetables (— Rs. 5·21 lakhs), tea (— Rs. 3·21 lakhs), raw cotton (— Rs. 1·83 lakhs), and oil-cakes (— Rs. 1·50 lakhs), partly set off by larger shipments of sugar (+ Rs. 11·51 lakhs), fish (+ Rs. 7·37 lakhs), manures (+ Rs. 6·75 lakhs), postal articles (+ Rs. 4·63 lakhs), chillies (+ Rs. 2·95 lakhs), coloured piece-goods (+ Rs. 1·47 lakhs) and coir manufactures (+ Rs. 1·02 lakhs).

Straits Settlements.—*Imports* from the *Straits Settlements* improved by Rs. 9·13 lakhs, increases being recorded under sugar (+ Rs. 2·62 lakhs), betelnuts (+ Rs. 4·09 lakhs), farinaceous foods (+ Rs. 1·60 lakhs), pepper (+ Rs. 1·55 lakhs) and tin (+ Rs. 1 lakh), but there was a deficit of Rs. 9·16 lakhs under kerosene oil. *Exports* further advanced by Rs. 15·28 lakhs; larger shipments of coloured piece-goods (+ Rs. 8·86 lakhs), groundnuts (+ Rs. 5·73 lakhs), and living animals (+ Rs. 2·98 lakhs) mainly contributed to this improvement.

Other British Possessions.—Smaller imports of sugar reduced the trade with *Mauritius* by Rs. 10·83 lakhs. The *Federated Malay States'* share improved by Rs. 3·23 lakhs as a result of larger shipments of living animals, rice and silk goods. *Canada* received more tea and *Egypt* more indigo and for these reasons our trade with these countries improved by Rs. 26·46 lakhs and Rs. 5·64 lakhs respectively. Larger shipments of raw goat skins increased the trade with *New South Wales*. The decline in trade with *Victoria* was due to smaller imports of horses from, and smaller shipments of coffee to, that colony.

Foreign Trade.

THE CONTINENT OF EUROPE.

Prior to the outbreak of the war the trade of the Madras Presidency with the *Continent* amounted to 28 per cent of the total foreign trade; in 1914–15 it dropped to 20 per cent, in 1915–16 to about 12 per cent and in 1916–17 to 10 per cent. Imports declined by Rs. 13·16 lakhs, or 17 per cent, and exports by Rs. 55·06 lakhs, or 15 per cent, making a total deficit of Rs. 68·22 lakhs, or 16 per cent.

France.—Trade with *France*, which amounted to 7 per cent of the total foreign trade, fell away by Rs. 45 lakhs, or 14 per cent. *Imports* declined by Rs. 1·74 lakhs in consequence of smaller receipts of gold and silver thread and haberdashery, and *exports* by Rs. 43·27 lakhs as a result of smaller shipments of groundnuts (— Rs. 107·95 lakhs) and coffee (— Rs. 6·17 lakhs), partly counterbalanced by larger exports of copra (+ Rs. 47·89 lakhs), pepper (+ Rs. 11·70 lakhs), coir manufactures (+ Rs. 2·76 lakhs), senna leaves (+ Rs. 2·48 lakhs), raw skins (+ Rs. 2·24 lakhs), oils (+ Rs. 1·65 lakhs) and tanned skins (+ Rs. 1·46 lakhs).

The trade with *Italy* improved by Rs. 5·82 lakhs as there were larger shipments of pepper, raw cotton and groundnuts but shipments of raw hemp declined. Smaller arrivals of matches and iron and steel reduced the trade with *Sweden* by Rs. 5·29 lakhs. There have been no exports to that country during the past two years. The expansion of Rs. 2·08 lakhs in the trade with *Norway* was due to larger shipments of copra to that country. *Holland* received less coir manufactures and *Spain* less raw cotton and groundnuts than in the previous year, and the trade with these two countries was reduced by Rs. 7·89 lakhs and Rs. 5·93 lakhs respectively. There was very little variation in the trade with *Switzerland* which amounted to Rs. 5·28 lakhs; larger imports of watches having been counterbalanced by smaller shipments of raw cotton. There were no imports from *Russia* and exports to that country declined from Rs. 1·52 lakhs to Rs. 0·15 lakh.

The small quantity of imports from enemy countries represents goods landed from prize vessels.

ASIA.

The trade with Asiatic ports, other than British ports, improved by Rs. 92·41 lakhs, or 43 per cent, and represented 8 per cent of the aggregate trade. The trade with *Japan* expanded by Rs. 107·66 lakhs, or 101 per cent. Larger arrivals of articles by post, stationery, paper and pasteboard, haberdashery and cotton hosiery, partly set off by smaller receipts of camphor and matches improved the imports from that country by Rs. 3·17 lakhs. Exports were larger by Rs. 101·49 lakhs, raw cotton (+ Rs. 97·12 lakhs), tanned sheep skins (+ Rs. 6·17 lakhs) and articles by post (+ Rs. 1·87 lakhs) contributing to the increase. By sending two large consignments of sugar the *Philippine Islands* increased their trade with Madras at the expense of *Java*. The trade with *China* declined by Rs. 19·19 lakhs due to smaller supplies of cotton twist and yarn (— Rs. 15·84 lakhs) and raw cotton (— Rs. 4·93 lakhs) to that country.

AFRICA.

The trade with *Africa*, excluding Egypt, improved from Rs. 0·61 lakh to Rs. 4·01 lakhs on account of large shipments of rice to *Réunion*.

Imports coastwise of Indian produce declined from Rs. 556·65 lakhs to Rs. 530·98 lakhs, or by 9 per cent, while those of foreign merchandise increased from Rs. 73 66 lakhs to Rs. 81·79 lakhs, or by 11 per cent. *Exports* of both Indian and foreign produce increased by 13 and 56 per cent respectively, the figures for the former being Rs. 541·48 lakhs and the latter Rs. 16·95 lakhs against Rs. 478·03 lakhs and Rs. 10 89 lakhs respectively, in the previous year.

Bombay.—The decline of Rs. 1·21 lakhs in *imports* from Bombay was the net result of smaller receipts of grain and pulse by Rs. 5·82 lakhs, coffee by Rs. 1·90 lakhs, cotton twist and yarn by Rs. 1·80 lakhs, salt by Rs. 1·41 lakhs, coriander seeds by Rs. 1·37 lakhs and copper by Rs. 1·22 lakhs, partly counterbalanced by larger imports of raw cotton by Rs 3·20 lakhs, sugar by Rs. 2·69 lakhs and paper and pasteboard by Rs. 1·17 lakhs. The expansion in the case of *exports* to Bombay was due to increased shipments of coffee by Rs. 12·29 lakhs, groundnuts by Rs. 9·28 lakhs, coconuts by Rs. 8·49 lakhs, drugs and medicines by Rs. 4 48 lakhs, copra by Rs. 3·48 lakhs, dried fruits by Rs. 2·98 lakhs, timber by Rs. 3·59 lakhs, betelnuts by Rs. 2·25 lakhs, pepper by Rs. 1·74 lakhs, groundnut oil by Rs. 1·70 lakhs, sandalwood by Rs. 1·04 lakhs, and ginger and manures by Rs. 1 lakh each, but shipments of raw cotton and rice declined by Rs. 11·78 lakhs and Rs. 1·91 lakhs respectively.

Burma.—There was a decrease of Rs. 33·03 lakhs in the *imports* from Burma, the net result of smaller imports of grain and pulse (— Rs. 59·13 lakhs), partly met by larger receipts of teakwood (+ Rs. 11·86 lakhs), petrol (+ Rs. 4·34 lakhs), kerosene oil (+ Rs. 1·70 lakhs) and raw hides (+ Rs. 1·29 lakhs). The increased

exports to Burma were brought about by heavier shipments of groundnut oil (+ Rs. 7·18 lakhs), jingili seeds (+ Rs. 4·69 lakhs), coconut oil (+ Rs. 2·95 lakhs), coffee (+ Rs. 1·52 lakhs) and coir manufactures (+ Rs. 1·38 lakhs), but shipments of cotton piece-goods and groundnuts declined by Rs. 4 lakhs and Rs. 2·72 lakhs respectively.

Bengal.—Smaller imports of coal (— Rs. 13·23 lakhs) and jute gunny bags (— Rs. 3·77 lakhs) reduced the *imports* from Bengal by Rs. 16·35 lakhs, and smaller shipments of rice (— Rs. 9·51 lakhs), coconut oil (— Rs. 3·09 lakhs), groundnuts (— Rs. 2·86 lakhs), coir manufactures (— Rs. 1·55 lakhs) and indigo (— Rs. 1·48 lakhs), partly set off by larger shipments of cotton twist and yarn (+ Rs. 5·41 lakhs), raw cotton (+ Rs. 3·50 lakhs) and salt (+ Rs. 1·94 lakhs) brought about a decrease of Rs. 9·82 lakhs in the *exports* to Bengal.

Other ports.—The decline in *imports* from *Sind* was due to smaller receipts of grain and pulse, and the slight improvement in *exports* was the net result of larger shipments of coconut oil and smaller shipments of copra. Larger shipments of rice to Goa improved the export trade with *Non-British Indian ports*.

Shipping.—The number of *entries* from coasting ports increased from 12,705 with a tonnage of 3,621,937 to 13,028 of 2,665,843 tons. The majority of the infringements were as usual under clause B (1) in which goods, manufactured chiefly in Japan and the United States of America, bore descriptions suggestive of British origin unaccompanied by a distinctive and permanent indication of the country of origin.

The more important of the cases are summarised below :—

(i) A small consignment of toilet powder was imported from Japan put up in imitation of the product of a well-known English manufacturer without the necessary indication of the country of origin. It was confiscated but subsequently released on payment of a redemption penalty of Rs. 100.

(ii) Two consignments of Japanese matches bore the counter-indication of the country of origin in such minute type as to be scarcely visible. They were passed on payment of penalties of Rs. 25 and Rs. 75.

The increase in the number of cases under class D from 33 to 103 was due to the inclusion in the revised list of piece-goods (published under section 19 of the Merchandise Marks Act) of a number of new items which formerly did not require to be stamped with yardage, and to the importers not having taken proper steps to advise the suppliers of the additions to the list.

Penalties amounting to Rs. 1,451 were imposed in 204 cases In the previous year there were 83 cases and the penalties amounted to Rs. 742.

Cotton Duties Act.—The total production of *yarn* in the Presidency was 44,196,607 lb. during the year under review, against 44,393,511 lb. in 1915–16, showing a decrease of less than ½ per cent.

The total quantity of *cloth* produced in the mills of the Presidency was 13,927,193 lb. against 11,959,884 lb. in the previous year. Of the total production, the mills in the City of Madras were responsible for 12,258,611 lb., the bulk of which consisted of khaki cloth for the military authorities.

The *excise duty* collected during the year amounted to Rs. 2·87 lakhs against Rs. 2·11 lakhs in 1915–16, an increase of 36 per cent.

The amount of *drawback* paid on account of shipments to foreign ports was Rs. 2,239 compared with Rs. 2,610 in the previous year.

Documents.—There was an increase of 1 per cent in the total number of documents dealt with during the year. These comprised 48,651 bills of entry, 62,587 shipping bills, 17,591 import manifests and 17,404 export manifests,

against 42,185, 65,017, 16,249 and 16,154 respectively, in the previous year. The number of documents amended was 3,823 and the amount of fees realized was Rs. 2,645 against Rs. 4,103 and Rs. 2,849 respectively, in 1915–16. The number of bonds executed for goods warehoused during the year was 337 compared with 351 in the previous year.

Administration.—During the year the Motor Spirit (Duties) Act II of 1917 provided for an imposition of an excise duty of 6 annas on each Imperial gallon of motor spirit either manufactured or imported. Act VI of 1917 further amended the Indian Tariff Act, and under it the import duty on cotton piece-goods and other manufactured cotton goods was raised from 3½ per cent to 7½ per cent, and that on silver manufactures was fixed at 10 per cent *ad valorem*. The export duty on jute and jute manufactures was doubled.

Statistical publications.—The sale-proceeds of statistical publications amounted to Rs. 6,166 against Rs. 6,676 in 1915–16, the cost incurred in preparing them (excluding the monthly statement of imports and exports from the chief port and the supplement for outports, which are printed at the Government Press) was Rs. 4,996 against Rs. 5,129 in the preceding year.

Administration of outports.—With the exception of a few ports in the Western Customs Circle, all the outports and principal land customs stations were inspected by the Collector or Senior Assistant Collector.

On the Pondicherry frontier, Karadikuppam Chauki has been converted temporarily for one year into an outgate. On the West Coast the sub-port of Shirur was closed as such and made a wharf of Baindur.

The Northern Customs Circle was in charge of Mr. J. B. Chatterton until 8th June 1916 when Mr. S. R. Beeson from Cuddalore took charge. Mr. Beeson was promoted soon afterwards to be Assistant Collector of Customs, Madras, and handed over charge to M.R.Ry. P. Duraiappa Ayyar Avargal.

At the beginning of the year the Central Customs Circle No. I was in charge of Mr. S. R. Beeson, but about the middle of June Mr. J. W. Borebank from Dhanushkodi relieved him.

Establishment.—Mr. C. W. E. Cotton, I.C.S., who assumed charge as Collector of Customs, Madras, on the 27th October 1915 went on privilege leave for six weeks from 26th April 1916. Mr. G. S. Bower, the Senior Assistant Collector, was appointed Officiating Collector during Mr. Cotton's absence on leave and again when the latter was transferred to Calcutta on 8th September 1916. On 5th November 1916 Mr. Bower was relieved by Mr. P. Eccles, I.C.S.

On 31st January 1917, Mr. Eccles proceeded on five weeks' privilege leave and Mr. Bower again officiated as Collector.
